Cross Country Men Ready for Annual Hill and Dale Championship Race at Brightwood

CROSS COUNTRY RUN ON AGAIN TOMORROW

Track Heavy, But Entries Large for Third Renewal at Brightwood.

THREE CLUBS AFTER SILVER TEAM TROPHY

Elphinstone, Lee, Reeside, Stecher and Holland Among the Competitors.

The third renewal of the South Atlantic Association Cross Country champlouship fun over the Brightwood course will start at a o'clock tomorrow afternoon from the Brightwood Hotel, ra gardless of weather conditions

The heavy snow and rain of yester day has made the going over the course very heavy, so that there is not much likelihood of a new record being created But the fact that the entry list is the largest since the championship has been established will give unusual interest to the struggle for individual and

ENGLISHMEN WANT LANGFORD BEATEN

Prejudice Is Not Getting the Better of Britons' Betting Judgment.

LONDON, Feb. 21 .- Race prejudice as trong as ever manifested itself in the United States is cropping out here in connection with the twenty-round fight tonight between Sam Langford, the Boson Tar Baby, and Bill Lang, the Aus-

Hundreds of letters have been received at Lang's camp from all over England, wishing him luck in his efort to uphold the white race.

Last evening, a large delegation, most of whom were women, visited Langford's headquarters and openly insulted the black man by telling him they 'hoped he would have his head knocked If Lang answers this prayer, he will be the most popular man in Eng-

While the public is pulling for Lang to win, it isn't letting its favoritism get the better of its judgment, and Langford is still on the long end in the betting, at odds of 5 to 4. It is estimated that \$175,000 has been wagered on the fight in big bets alone.

Physicians examined Lang today and ronounced him the finest physical specimen they had ever seen. Langford is in his usual jolly mood and repeated his prediction today that he would put Lang away inside of twelve rounds.

Bantams Meet Tonight. NEW HAVEN, Conn., Feb. 21 .- The

Yale Eleven Not After Game With Williams

NEW HAVEN, Conn., Feb. 21 .- Manager Kaynor, of the Yale football eleven, declares that there is no truth in the statement that he was negotiating with Williams College for a game next fall. The Williams management had arranged a game with Dartmouth on the only open date Yale had, and all idea of playing a game was long since abandoned. Manager Kaynor said that Yale's schedule was still held up by failure to settle one game. He denied that a purse of \$5,000 was being made up to induce Haward Jones to return to Vale as head coach, or that Kilpatrick had been offered the position. Jones can have the position if he will take it, but the faculty is averse to allowing a \$5,000 purse to be raised for the coach.

BUICK STRIKES OIL

Buick Midway Well Comes In, Flowing 1,500 to 3,000 Barrels-Means That the Buick Properties Are Worth From Two to Three Million Dollars More.

THIS TELEGRAM TELLS THE STORY:

BUICK OIL CO., Room 420, Marquette Bldg., Chicago, Ill.

Moron, California, Feb. 17th, 1911.

Buick Midway number one well came in to-day at one thirty P. M. under absolute control, flowing from fifteen hundred to three thousand barrels per day. Had sump holes ready. Capacity estimated fifteen thousand barrels. Are erecting 2 two thousand-barrel tanks. Are negotiating with the Associated Co. for use of their fifty-five-thousand-barrel storage-tank. Oil D. D. BUICK. flowing though two five-sixteenth-inch holes. Heavy gas pressure.

At last we are enabled to give he public definite and specific lews. We have struck our first usher and it is one of the best the field.
Do you know what this means? you know that it answers ry one of the critics and those have scoffed and lied about

Buick Oil? It tells our stock-olders that their judgment has seen right. More than this, it tells in direct language the value of Buick Midway holdings. Think of an oil well that is to-day producing from 1.500 to 3.000 barrels. At the present selling price of oil this means a daily value of from \$750 to \$1.500 to the well. This is not the important question, however. The real proof of this well lies in the fact that our Midway forty is a proven territory. We can sink ten wells, ves, fifteen wells, to the acre. We have forty of such acres and this is just a small proportion of our heldings in this proportion of our holdings in this field. We do not intend to stop now that our well has come in. but the crew that has been work. shift their operations to Buick Midway No. 2, and another crew will be installed as soon as nossible upon Buick No. 3 and No. 4 and No. 5

The pire lines, as you know, are close to our property. We will have no difficulty from this our well, will flow from our set-tling tanks and vats into the great pipe lines close by and from there on north to Frisco or west to the Pacific Coast, where it will be loaded into ves-

where it will be loaded into vessels or trains of cars and sent to market.

We have repeatedly told the nublic that we would bring in this well and that it would be a hig one. We have made good our predictions. The telegram we received and quoted above bears. big one. We have hade good will predictions. The telegram we received and quoted above bears the announcement only that the well has come in. Later we shall receive full and complete information from Mr. D. D. Buick, who is upon the field, and this information we shall send forth to our stockholders in a special report, published in the "Buick Oil News". We shall be glad to give this report also to every one who writes to us for it. One week from today we shall also publish the very latest developments with respect to our No. I well, and our other holdings, throughout the press of this country. out the press of this country neonle have written us that they contemplated purchasing Bulck Oil stock when we actually had struck oil. When this announcement appears it will demonstrate the value of Butel Oil chares and

420 Marquette Bidg., Chiengo.
Gentlemen—Please mail me your
great book, "The Land Where Oil Is
King," describing the Buick Oil
Lands and covering in photographs,
government reports and other facts

government reports and other facts and statistics, the greatest oil field in the world, Kern County, California. I do not agree to buy shares, but will give this literature a careful reading.

the record this company has made in the sale of its stock heretofore will be as nothing when compared to the amount of stock that will be sold within the next six or seven days.

We have repeatedly told the public to buy Buske Oil. We told you to do this when the shares were 50 cents, and thousands of stockholders did so. We now tell you to do the same when the stock is 75 cents, for it is certainly going higher.

The income which we receive

higher.

The income which we receive from the sale of oil from our first well will not only enable this company to sink its future wells in a more rapid manner, but this single well has had the influence of stamping the Bulck property as proven and valuable property. Bulck oil stock has now been taken out of the non-producing class and is a producing company. We do not intend to rest upon our oars, but we do say that the No. 1 well proves absolutely the value of the Bulck oil holdings of 640 acres. Work is soon to be started upon our 560-acre holdings in the Sunset Security field, and a little later we shall begin operations on our 40-acre tract, located in the Maricopa Sunset field. We have told you about the Buick Midway, we now tell you about our 560-acre tract. tell you about our 560-acre tract and our 40-acre tract. The oil men of the Midway field are wildly en-thusiastic over the bringing in of the Buick Midway No. 1 well. This well has been the center of attraction for the past ten days, and our reports from the oil fields have our reports from the oil fields have proven to us that utmost excitement has prevailed among owners of oil lands adjacent to the Buick property. Upon one side of us the Southern Pacific is reported to have paid three million dollars for a tract of land; upon the other is the California Midway, which has already brought in one gusher and is now down within a few hundred feet of oil sands. The bringing in feet of oil sands. The bringing in of the Buick Midway well has proven this entire region. No won-der there is excitament. For those

der there is excitement. For those who are lucky enough to own land in this vicinity one can feel almost certain that every acre will net them thousands upon thousands of dollars per day in income.

The people of the United States have had faith in D. D. Buick, the founder and inventor of the Buick automobile. They have been instrumental in the bringing in of the Buick Midway well, for they have purchased Buick Oil shares because of the record of D. D. Buick, Now that Mr. Buick's predictions have come true in one in-Hulek. Now that Mr. Buick's pre-dictions have come true in one in-stance, this combany will not only enjoy the most unheard-of patron-age so far as future sales of this stock is concerned, but it is en-abled by this glad news to forever silence the malicious critics who

have been attacking Buick Oil and who have been endeavoring to dissatisfy its stockholders. What do you think the earnings

What do you think the earnings of the Buick Oil Company will be when we have 10 wells upon the Buick Midway forty, all of them bringing in 1,500 to 3,000 barrels of oil or more per day? Selling our oil at 50c per barrel means that we will enjoy an income of \$750.00 to \$1,500 per day for each and every well put down if these wells run 1,500 to 3,000 barrels per day. This means that our income would be means that our income would be on one acre alone \$7.500 to \$15.000 per day, or \$2.742.500 to \$4.485.000 per year. If such an income is possible upon one acre, what will the income be upon forty acres, and every tract in the Midway tract is, in our opinion, equal to the land upon which our Buick Midway No. 1 well is located. No man alive can figure out the profits to be derived from Buick oil. They are merely speculative.

merely speculative. We feel that Bulck Oil stock will go to several times its present price and we fully anticipate being able to return to our stockholders, in the nature of large dividends, ample profit upon their investment, simply from several of these wells. When our 560-acre holdings are being operated, together with the 40-acre Maricopa Sunset, and after we have several other wells gushing upon our Midway tract, the earning power of Buick Off stock will be colossed.

earning power of Bulck Oll stock will be colossal.

Now is the time to buy Bulck shares at 75 cents. Do not wait a single day. Do not delay, but pur-chase as many of these shares as your present income and mode of life will enable you to do. It is our opinion that this company will not have to sell very much more of its stock, and we believe from the thousands upon thousands of letters which we have received in the past, and are receiving today from all sections of this country, that we will exhaust every share we have for sale within a very short time.

we have for sale within a very short time.

Our No. 2 well, which will be started immediately, should reach the oil body in 120 days, and No. 3 well should come in within a short time thereafter. It is our hope and ambition to have three producing wells on Bulek Midway 40 by the the middle of summer, and we believe that when these wells are producing that this company's stock ducing that this company's stock cannot be purchased for two or three times the price it is selling at today, for then it should be earning very large dividends.

All questions of experiment are now in the past. The future of this company resolves itself down to a purely arithmetical question. This company publishes a little paper called the "Buick Oil News." which appears twice each month. The next edition of this publication will be out in about one week, and in this issue we intend to tell the story of the bringing in of this well in full detail. We hope to be able to have photographs of the able to have photographs of the well as it came in, and we will be glad to see that each and every stockholder or person interested in this company who will send in the coupon below, receives a copy of this publication.

this publication.

We know exactly, foot by foot, the character of the ground we will have to pass through in our next wells at Midway. We have all this information at hand and this experience will enable us to perform the drilling of the new wells in about one-half the length of time and with 50 per cent of the expense.

My advice to every man and wo-man who reads this advertisement is to inform yourself more of Buick Oil if you are not satisfied that now is the time to buy this Com-

now is the time to buy this com-pany's shares.

We have published a great book entitled "The Land Where Oil Is King," and in this book you will find the most interesting literature with respect to the California oil fields you have ever read. It gives you facts and figures which are al-most beyond belief, but which are absolute proofs, and even the chil-dren in California are well versed in this knowledge. Those things which look to these Eastern men as almost unbelievable are matters of almost unbelievable are matters of everyday interest to people who live in and around the great oil fields.

Men who but a few months or years ago were working for wages are today rich because of the investments and money they have made out of the California oil companies. Just a few hundred dollars vested in some of these companies have netted the stockholders thousands of dollars in profits per year. have netted the stockholders thousands of dollars in profits per year, and what I expect to do before very long is to prove to the world the holdings of the Buick Oil Company are among the richest in the State. The great book, which we will send free, tells you of all these questions, and we will also send a copy of a little magazine published every two weeks, which we call the Buick Oil News, and this publication is filled with the news items, not only of the Buick Oil Company, but of all news matter which is of importance to the oil industry.

Do not hesitate to buy some of this company's stock now, today, this very minute. Send in the cou-pon below for as many sheres as

you desire.

The following table will show you how to make your payments if you purchase on the installment plan. If you want to known more, ver, about this Company you invest, send in the information coupon below and we will send this
